SENIOR PAGEANTS GROUP

Wikipedia

“The Senior Pageants Group is the ‘Gold Standard’ of Senior Pageantry that has brought the concept of senior women and pageants into mainstream society.”

Carl Dunn, CEO Pageantry Magazine

Motto

#Embrace, Encourage, Empower

Mission Statement

Our organization honors and celebrates the lives and accomplishments of women over 60. We are the women and daughters of the “The Greatest Generation.” We encourage women as they approach 60 to embrace who they are and to understand that age does not limit what they can become and what they have to offer the world. As senior women, we have nurtured our families, our careers and our local communities while surviving personal tragedy, economic depressions, regional conflict, and World Wars. We have been present while the nations of the world went to the unthinkable brink of nuclear holocaust. We are strong, savvy, goal-oriented, wise, and aware. We display these characteristics in our everyday lives, as people, and as humanitarians who always seek to improve the lives of others. As an organization, we seek to further empower women of all ages, nations, and cultures to strive for equality, to achieve their personal best, to make real and meaningful changes and to individually redefine what it means to be a senior woman and role model to the communities of women who will follow us.
